

## CLP Smart Elderly Home Solutions

CLP strives to support elderly homes tackling the manpower shortage problem and improving their energy efficiency. We has teamed up with a local smart technology vendor to create a one-stop smart management system for elderly homes.

The system allows operators to easily control different smart devices in elderly homes through a mobile app. It also monitors electricity consumption to identify energy-saving opportunities.

To find out more, please call 2678 2660.

## CLP Smart Energy Home Transformation Webinar

The webinar was successfully conducted on 28 September 2021 and invited industry experts to share the experiences and challenges of operating smart elderly homes, explaining the latest smart technology products and giving advice on energy-saving solutions.

# Electrical Equipment Upgrade Scheme

Provides subsidies for business customers to replace electrical equipment with more energy-efficient models.

 Subsidies up to

**HK\$10,000\***

## Subsidy Amount for Eligible Electrical Equipment

LED Light Bulbs / Downlights

**HK\$20** each or **80%** of the unit price, whichever is lower.

LED Tubes / Lights Strips / Panel Lights <sup>^</sup>

**HK\$60** each or **80%** of the unit price, whichever is lower.

Air-conditioners (Single package type/split type) with Grade 1 energy label <sup>+</sup>

**HK\$1,000** each or **80%** of the unit price, whichever is lower.

Air-Conditioning Systems Not covered by the Mandatory Energy Efficiency Labelling Scheme (MEELS)

This subsidy is awarded in a one-off payment and is based on the estimated annual energy saving (HK\$0.5 subsidy for each kWh saved)
