

CLP Eco Charge 2.0

To promote low-carbon driving, CLP provides reliable and clean power for electric vehicle (EV) charging in carparks. In support of the Government's newly launched EV-charging at Home Subside Scheme (EHSS), we advanced our Eco Charge 2.0 to provide one-stop services to EV users.

Service Scope

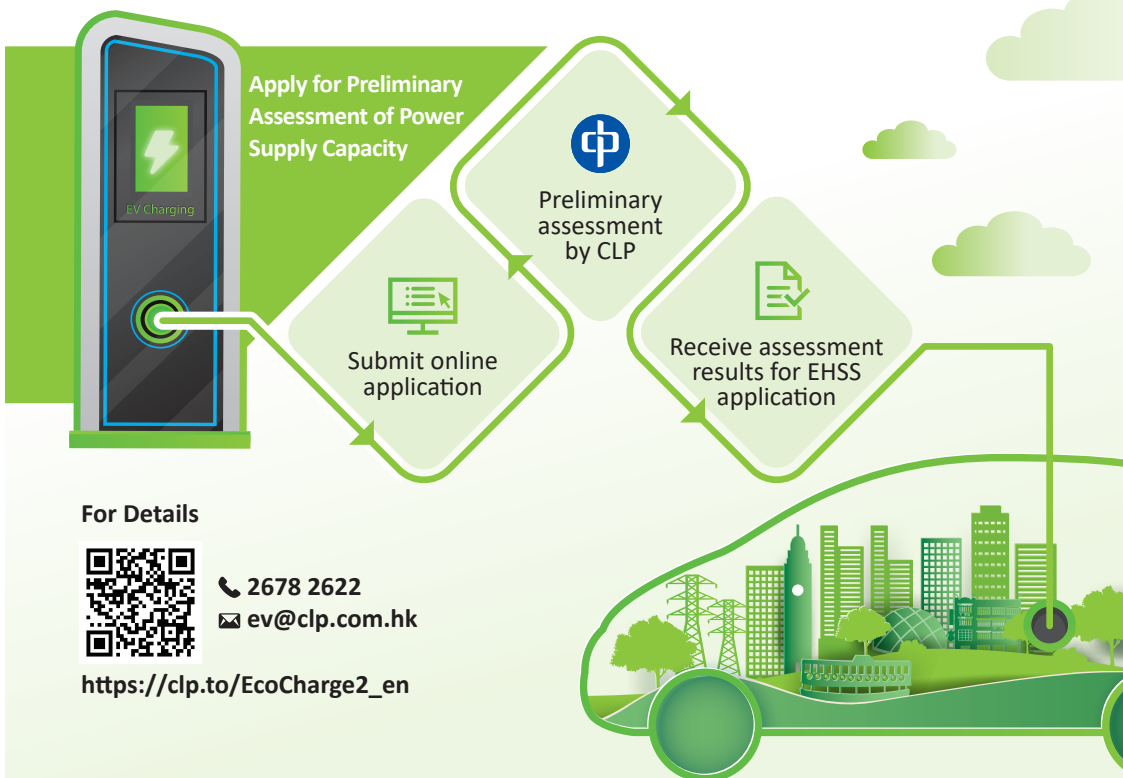

Free preliminary
assessment of power
supply capacity

Technical advice on
power upgrading
works

Technical advice on
meter installation
