and make bluer skies

Subsidy  
Scheme

# CLP Eco Building Fund

## Powering a Smarter & Greener Tomorrow

Eco Building Fund offers subsidies for energy-related improvement works in communal areas of residential, commercial and industrial buildings, achieving greater energy efficiency with lower energy costs.

### How to Apply

Submit  
Application

Pre-assessment  
by CLP

Approval by  
Vetting Committee  
or CLP

Award Contract ^

Post-assessment  
by CLP

Award Funding

^ Projects must be completed within 24 months upon approval

### Which Types of Buildings are Eligible?

Residential, commercial and industrial buildings in the CLP supply area, except for government buildings.

### What Types of Project Does the Fund Cover?

- Retrofitting projects – energy improvement works including lighting, air conditioning and other electrical installations
- Retro-commissioning projects
- Implementation of smart technology in buildings

### Getting Prepared

- Engage a Qualified Service Provider, or an Energy Saving Facilitator to offer consultancy service (if applicable)
- Identify the scope of energy efficiency works
- Calculate the estimated energy saving
- Tender your bids (at a minimum of two bids or quotations, depending on project size)

Submit your application today.

Together we can build  
a greener Hong Kong.
