

## CLP Eco Building Fund

### Powering a Smarter & Greener Tomorrow

The newly launched Eco Building Fund offers subsidies for energy-related improvement works in communal areas of residential, commercial and industrial buildings, achieving greater energy efficiency with lower energy costs.

#### Who is Eligible?

Residential, commercial and industrial buildings in the CLP supply area, except for government buildings.

#### What Types of Project Does the Fund Cover?

- Retrofitting projects – energy improvement works including lighting, air conditioning and other electrical installations
- Retro-commissioning projects
- Implementation of smart technology in buildings

#### Getting Prepared

- Engage a Qualified Service Provider to provide consultancy service
- Identify the scope of energy efficiency works
- Calculate the estimated energy saving
- Tender your bids (at a minimum of two bids, depending on the project size)

Submit your application today. Together, we can build a greener Hong Kong.

#### How to Apply

Submit Application

Pre-assessment by CLP

Approval by Vetting Committee or CLP

Award Contract\*

Post-assessment by CLP

Award Funding

\*Projects must be completed within 24 months upon approval
