

# CLP Electrical Equipment Upgrade Scheme

## Powering a Smarter & Greener Tomorrow

The newly launched Electrical Equipment Upgrade Scheme provides subsidies to commercial and industrial customers to replace or upgrade their electrical equipment to more energy efficient models, for both retrofit and new installations.

### Who is Eligible?

Commercial and industrial customers in the CLP supply area, excluding holders of temporary power supply accounts and government accounts.

### What Type of Equipment Does the Fund Cover?

Replace or upgrade:

- LED light bulbs and tubes (T5 or T8 standard)<sup>^</sup>
- Air-conditioners with Grade 1 energy label
- Other high energy efficient air-conditioning systems, such as air-cooled and water-cooled chillers, variable refrigerant flow systems

Submit your application today. Together, we can build a greener Hong Kong.

<sup>^</sup> Eligible for replacing non-LED light bulbs or tubes only

\* Equipment must be purchased between 1 January 2019 and 31 December 2023

## How to Apply

	Non-Residential Tariff Customers	Bulk-Tariff or Large Power Tariff Customers
 Submit Pre-installation Inspection Request Form	✓	✓
 Pre-installation Check by CLP	✓	✓
 Installation of Energy Efficient Equipment	✓	✓
 Submit Application Form (with a copy of invoice or receipt)	✓	✓
 Post-installation Check by CLP	✓ (sample check)	✓ (full check)
 Approval by CLP	✓	✓
 Award Subsidy through Customers' Electricity Accounts	✓	✓

 2678 0322

The scheme outlined in this leaflet is subject to terms and conditions.

## Subsidy Amount for Eligible Products

### LED Light Bulb<sup>1</sup>

All watts

 Subsidy Amount

**HK\$20** each or half of the purchase price, whichever is lower

### LED Tube<sup>2</sup>

All watts

 Subsidy Amount

**HK\$60** each or half of the purchase price, whichever is lower

### Air-conditioner with Grade 1 energy label<sup>+</sup>

Independent type / Split type

 Subsidy Amount

**HK\$300** each or half of the purchase price, whichever is lower

### Air-conditioning systems not under MEELS

High energy efficient air-cooled / water-cooled chillers, variable refrigerant flow systems and unitary air-conditioners

 Subsidy Amount

The subsidy is based on the energy saved by the applicant over the course of the year and is awarded in a one-off payment (HK\$0.5 subsidy for each kWh saved)

<sup>1</sup> Eligible for replacing non-LED light bulbs. LED light bulbs must be registered under the Voluntary Energy Efficiency Labelling Scheme announced by the Electrical and Mechanical Services Department (EMSD)

<sup>2</sup> Only applicable to T5 or T8 LED tubes

<sup>+</sup> Registered under the Record of Listed Models of Mandatory Energy Efficiency Labelling Scheme announced by the EMSD

## Important Note

From 1 January 2019 to 31 December 2023, subsidies for electricity accounts will be capped as follows:

- Non-Residential Tariff customers: HK\$4,000
- Bulk-Tariff or Large Power Tariff customers: HK\$150,000
