

CLP Energy Audit

Powering a Smarter & Greener Tomorrow

CLP offers free energy audit to find out how your business can be smarter and greener by saving energy and operation costs.

Who is Eligible?

ALL CLP business customers are welcome to join this service.

How Will I Benefit?

CLP will visit your site to conduct an audit service to understand your unique business energy consumption patterns, help identify potential Energy Management Opportunities (EMOs) and reduce your energy costs.

What Will CLP Do?

- Conduct Indoor Environmental Quality (IEQ) spot measurement
- Carry out energy system performance analysis
- Identify EMOs
- Offer energy saving recommendations with a detailed report:
 - Review building's energy consumption breakdown
 - Analyse EMOs and high-level payback
 - Provide a high-level retro-commissioning review
 - Give advice on smart technology application

How Does It Work?
