

Energy for Life

Green Building Symposium 2013

Jointly Build a Green Metropolitan

As part of its commitment to contributing to a greener environment, CLP Power has been collaborating with customers to help them manage their buildings more energy efficiently. This symposium is a platform for green building experts and CLP customers to share their challenges and experiences on how to make Hong Kong's buildings greener.

CLP will recommend 4 hours personal training credit towards Continuous Professional Development (CPD) for HKIE members. Participation certificate will be provided after the symposium.

Date: Friday, 1 November 2013

Time: 8:45am - 2:00pm

Venue: Grand Ballroom, Lower Level 1 (LL1),
Kowloon Shangri-La Hotel, 64 Mody Road,

Biographies

Ir Dr Honourable Lo Wai Kwok, BBS, MH, JP
Legislative Councillor (Engineering)
The Government of Hong Kong Special Administrative Region

Dr Lo is very active in the community and has served many government organizations, professional bodies and trade associations. He is currently Deputy Chairman of the Hong Kong Quality Assurance Agency, member of the Building and Tender Committees of the Housing Authority, the Hong Kong Science Park Board of Directors and the Hong Kong Certification and Testing Council. He is Vice Chairman of the Business and Professionals for Hong Kong, and Chairman of the Hong Kong Green Strategy Alliance.

Ir Harry Lai
Assistant Director / Electricity & Energy Efficiency
Electrical and Mechanical Services Department

Ir Harry H C Lai is the Assistant Director of the Electrical and Mechanical Services Department. He is overseeing the enforcement of regulatory functions and the implementation of initiatives on energy efficiency and conservation as well as electrical safety. Mr. Lai received his Bachelor of Science degree in Electrical Engineering and Master of Science degree in Environmental Management both from the University of Hong Kong. He is a fellow member of the Hong Kong Institution of Engineers.

Ir Dr Enzo Lau
Assistant General Manager (Technical)
Kai Shing Management Services Limited

Enzo is the in-charge person for technical matters of a portfolio of Commercial & Residential Developments in Hong Kong & Mainland. His role is not only to lead the teams to maintain the in-building facilities operating in a reliable and efficient manner, but also to implement various energy saving plans to reduce the greenhouse gas emission.

Ir Ricky Leung
General Manager, Technical Services
Airport Authority Hong Kong

Ricky is responsible for maintenance management of the Authority's assets at the Hong Kong International Airport, and for planning of improvement works. He is an engineer with more than 30 years experience, within which 20 years are on the planning, design, construction, operation and maintenance of airport infrastructure, facilities and systems. In the past, he had worked in various engineering consultants and Hong Kong government departments on the planning and design of engineering infrastructures.

Ir L.M. Chow
Director, Marketing & Customer Services
CLP Power Hong Kong Limited

L.M. has been serving the power industry in Hong Kong for over 36 years which covers the electricity power generation, transmission, distribution and retail. L.M. has been actively leading the retail teams of CLP Power to help customers save energy. Under LM's leadership, the account management teams have offered tailor-made energy management solutions to over 1,500 business customers which are mostly building operators.

Ir Conrad Wong, BBS, JP
Chairman
Hong Kong Green Building Council

Conrad has over 25 years of construction project management experience and is active in public and community services. He has been appointed as the Chairman of the Hong Kong Green Building Council, the Chairman of the Occupational Health and Safety Council, as well as the Director of the World Green Building Council. In the past, Conrad served as the President of both the Hong Kong Construction Association, and the International Federation of Asia and West Pacific Contractors' Associations.

Ir Nelson K. Chiu
General Manager
Sino Estates Management Limited

Nelson is in charge of Maintenance & Repair department of Sino Group. Beside the general maintenance & repair works, Nelson has also actively participated in asset enhancement project, energy efficiency and environmental management promotion system for Sino responsible buildings. Nelson recognizes the importance of sustainable development & environmental protection and works closely with the professional bodies for promoting green buildings.

Ir Patrick Cheung
Chief Engineer / Energy Efficiency Division B
Electrical and Mechanical Services Department

Patrick joined the Hong Kong Government for 28 years, he has been involved in the design and construction supervision of the building services installations for various projects. He is currently leading the team to enforce the Buildings Energy Efficiency Ordinance, promoting the wider use of water-cooled air-conditioning systems, energy efficient features and renewable energy, and overseeing the implementation of the district cooling system in Kai Tak Development in Hong Kong.
